Member's event

A few months back we had yet another one of our member-exclusive events. These function exactly like an All-Night Outing, which includes drinks, pizza, tokens, and 5 hours of laser tag. We had a great turnout of 28 members, and began the night with a few regular 1 shield games. Eventually we started playing inverted-U games, followed by super stealth, and then it was time to randomly draw a few teams and have a miniature tournament! This was interesting because we rarely have these particular combinations of players. It gives everyone a chance to see how they work with other players they have yet to play with in a competitive setting.

After the food we finished off the night with War Games. Everyone was so busy playing laser tag that they all forgot about the tokens that they were supposed to get as part of the package. So at 4:30am everyone received their tokens, and most were too tired to use them. Keep your eyes and ears open for the next member event! It's something you won't want to miss!

Tournament info

We've had a delayed start to our Regional season this year, partially due to the lack of players from out of state, and conflict with the holidays. That's OK! The wait will soon be over. This month we will host the Regional Opener here in Pittsburgh. Saturday night, January 26th, be here before midnight with your team of 5 players. Entry fee will be \$20 and the tournament will be double elimination. We have word that teams from Ohio and Michigan will be attending, and possibly even the 2006 National Champions, "Undisputed"! After our January tournament, the folks in Holland, Michigan will be hosting the next tournament on February 23rd. This is an important trip for all of us to make, because this year's National Championship is being held at this arena! They operate on the very old, somewhat different 3.1 system that we've spoke of several times in the past (check out the information in our past newsletters on our website at www.laserstorm.org)

Fall League results

This season was absolutely ridiculous! At the very end of the regular season, all 4 of the teams were about to have a tied record. That would have been 6 wins and 6 losses for 4 teams, resulting in the most balanced league we've ever had! Also, the arena configuration was very misleading. At first, everyone seemed to think that it was one-sided. That means that one side is easier to win on than the other. This proved to be absolutely untrue, all the way up to the very last game of the playoffs!

Strangely enough, the playoffs played out in a very predictable fashion, up until the last 2 weeks where the last place team defeated everyone else to clinch the Fall League Championship in 2007. Absolutely amazing! Congratulations "Ultra Laser Squad"!
